

AIR QUALITY PERMIT NOTICE
**Draft Federally Enforceable/Conditional Major Construction/
Operating Permit F-05-042 R1**
Cowboy Charcoal, LLC - Plant I.D. 21-053-00014

Cowboy Charcoal, LLC, formerly Cowboy Charcoal USA, Limited Partnership has applied to the Kentucky Division for Air Quality for a major revision to the permit to construct and operate a charcoal briquette manufacturing facility at Highway 90 and Route 1590, Albany, Kentucky. The plant is classified as a Conditional Major Source due to potential emissions of regulated air pollutants and hazardous air pollutants greater than a major source threshold. This permit contains practically enforceable limitations to restrict this source's potential emissions to less than a major source threshold. Construction authorized by this permit revision will increase potential emission of particulate matter by 14 tons per year, nitrous oxides by 6.5 tons per year, carbon dioxide by 8 tons per year, and total hazardous air pollutants by 0.25 tons per year.

An electronic copy of the draft permit should shortly become available at <http://www.air.ky.gov/permitting/>. Copies of the draft permit and relevant supporting information are available for inspection by the public during normal business hours at the following locations:
